SYNTAX v2.0

About us

SYNTAX (**S**upreme **Y**odas **N** **T**echnical **A**rchite**X**) is the Information and Technology event of Delhi Public School International, Pushp Vihar, New Delhi – 110057. In 2017 a group of passionate students, with the support of the school began the Inter School event. The e-geniuses of DPS International have won accolades in several prestigious competitions and events in India and hope to further enrich the IT ecosystem of Delhi.

Principal's Message

DPS International, Saket welcomes you to **SYNTAX v2.0**, to be held on **4th August 2018.** This is a platform for you to display your skills through technology.

In the times we live in, technology plays a vital role in our everyday lives. With every passing day, a new innovation is being brought into the market which advances an already existing software or gadget. These advancements have greatly improved our lives. Technology is increasingly gaining importance in every sector, especially in education. The profound effect of technology on students lives cannot be denied.

With the firm belief that it is possible to explore new horizons of technology through innovation and practical learning, we take great pleasure in inviting your school to participate in SYNTAX v2.0.

Regards
Mrs. Amita Mishra

Event Details

1.   SyntaxDesigning

Pure art is not always limited to a canvas and paints, so we invite you to create your magic on the screen instead. Students need to prepare an artwork using Photoshop within 2 hours. The topic for the event will be declared by the head incharge on the day of the event itself.

2.   SyntaxDiscussion

"Discussion is an exchange of knowledge; an argument an exchange of ignorance."

Ditch your friends Alexa and Siri for a while, and sit around to make some real conversation. A productive 2 hour group discussion will allow participants to voice their opinions and views, share their knowledge and ultimately leave the event having learned more than they already knew.

3.   SyntaxPresentation

There are a thousand ways of presenting what you know. Are you at the top of the list, or at the bottom? Let the young minds venture deeper into their creative skills, and prepare a PowerPoint Presentation worth applauding within a time period of 1 hour 30 minutes.

4.   SyntaxSurprise

There is no telling what comes next, no telling what comes before. There is only now, and in now you must expect the unexpected, for what you're looking for cannot be reached by search or trail.

*If a student is taking part in SyntaxSurprise, he/she must not take part in any other event.

5.   SyntaxQuiz

Is what you think really what it is? It's time to brainstorm and decide whether your knowledge is as accurate as you think it is. The prelims shall decide the top 6 teams worth qualifying for the finals.

6.   SyntaxCrossword

Take down the four walls of boxes and give them meaning, but understand that there is a limit to how far you can go. Think outside the box, but inside the grid within 1 hour 30 minutes.

7.   SyntaxPhotography

We give you the power to stop time in its track and capture what catches your eye. Participants get 2 hours to photograph what deems suitable and refine the beauty of the stills.
*Students need to carry their own camera, laptop, cables, SD cards, pen-drives or any other device required.

8.   SyntaxGaming

Wear your safest skins, stock up on enough ammo, and prepare for pure annihilation. SyntaxGaming will take you on a ride to all kinds of fields for you to assert your dominance on. May the best set of players win.
*Participants are allowed to get their own controllers.

9.   SyntaxProgramming

It is time to use your logical and programming skills to solve the most challenging possible problems. The online prelims will decide the top 6 programmers who will compete against each other during the onsite finals.
*Details regarding the prelims will be declared on the web page.

10.   SyntaxMovieMaking

A wise man once said a good movie often makes you forget that you're watching a movie, and so SyntaxMovieMaking expects the best. The details and the topic for the event will be declared on the Syntax web page.

Students need to upload the movie on YouTube and email us the link on syntax@dpsi.ac.in with their school name and the details of the 4 participating students. Winners will be announced during the closing ceremony, and the school's accompanying teacher can collect the award.

*Topic will be released on : 18th July' 2018
Deadline : 23:59:59 - 28th July' 2018
The 4 participants do not need to come to the host school to collect any awards or for any other round, related to SyntaxMovieMaking.

General Instructions

- Students must carry their school identity card.
- All information is available on the school website - dpsi.ac.in > Syntax v2.0
- We request the schools to follow the timetable for the day strictly to enable timely completion
